Fits	All H200 modules
Store SKU	T3B21A8S

Insert cutaway

Cutaway, .075 in engagement: the stainless steel insert pressed into the phosphor brass body

The five insert sections at one scale, this nozzle framed. **Orange:** the orifice bore, .075 in on this nozzle. The renders show the .012 in orifice.

Engagement length is the length of the small orifice bore inside the insert. The .050 to .150 nozzles look the same from outside, so confirm with the part number on the package or your order history. The .300 nozzle has a visibly longer tip.

Every nozzle is checked by hand

- Orifice hand probed and inspected
- Insert pressed in and crimped
- Inspected for a straight stream
- Labeled and packaged
