

Integrated Filter Element, 100 Mesh

5 pack for slim line guns, code letter F

Filter element for slim line guns, 100 mesh, sold as a 5 pack. It threads into the gun on an angle adapter; slim line guns do not take the inline filter.

Integrated filter element

Specifications

Type	Integrated filter element
Mesh	100 mesh
Pack quantity	5 elements
Fits	Slim line guns
Mounting	Threads into the gun on an angle adapter (straight, 45 degree or 90 degree)
Gun configuration code	Letter F in code field 10 (the digit is the adapter angle)
HMSC gun part number	Filter digits 20, 22 or 23 (mesh, then adapter angle)
Replaces Nordson	1123662

Integrated filter elements

Mesh (code)	HMSC	Nordson	Pack
50 mesh (E)	T11B36H1S	1123661	5 pack
100 mesh (F)	T11B36H2S	1123662	5 pack
200 mesh (G)	T11B36H3S	1123663	5 pack

Example: F4 is a 100 mesh element on the 45 degree adapter.

Used on 14 Quick Ship guns

14 slim line guns; 13 on the 45 degree adapter, 1 on the straight adapter. Nordson numbers (first 10):

Use and service

- Slim line guns do not take the inline filter. The element threads into the gun on an angle adapter.
- Replace the element when you change the adhesive or on your filter schedule.
- After a melter flush, install new integrated filters.
- H200 and MB2 guns with a hose connection filter use the inline filter, for example T10P72C4S (100 mesh, 45 degree).

Hot melt, heated parts and adhesive under pressure cause burns. Wear heat resistant gloves, safety glasses and long sleeves. Relieve system pressure before opening any fitting, filter, module or nozzle.
