PRODUCT SPECIFICATION · INTEGRATED FILTER ELEMENT, 5 PACK

Integrated Filter Element, 200 Mesh

5 pack for slim line guns, code letter G

HMSC PART NUMBER
T11B36H3S
Replaces Nordson® 1123663

Filter element for slim line guns, 200 mesh, sold as a 5 pack. It threads into the gun on an angle adapter; slim line guns do not take the inline filter.

Integrated filter element

Specifications

Type	Integrated filter element
Mesh	200 mesh
Pack quantity	5 elements
Fits	Slim line guns
Mounting	Threads into the gun on an angle adapter (straight, 45 degree or 90 degree)
Gun configuration code	Letter G in code field 10 (the digit is the adapter angle)
HMSC gun part number	Filter digits 30, 32 or 33 (mesh, then adapter angle)
Replaces Nordson	1123663

Integrated filter elements

Mesh (code)	HMSC	Nordson	Pack
50 mesh (E)	T11B36H1S	1123661	5 pack
100 mesh (F)	T11B36H2S	1123662	5 pack
200 mesh (G)	**T11B36H3S**	**1123663**	**5 pack**

Example: F4 is a 100 mesh element on the 45 degree adapter.

Used on 7 Quick Ship guns

7 slim line guns; 6 on the 45 degree adapter, 1 on the 90 degree adapter. Nordson numbers:

8518963 · 8518149 · 8529010 · 8527356 · 8529005 · 8529304 · 8529257

Use and service

- Slim line guns do not take the inline filter. The element threads into the gun on an angle adapter.
- Replace the element when you change the adhesive or on your filter schedule.
- After a melter flush, install new integrated filters.
- H200 and MB2 guns with a hose connection filter use the inline filter, for example T10P72C5S (200 mesh, 45 degree).

Hot melt, heated parts and adhesive under pressure cause burns. Wear heat resistant gloves, safety glasses and long sleeves. Relieve system pressure before opening any fitting, filter, module or nozzle.
